Office of Legislative Counsel

Tuesday - 8 April 1958

50X1

Senator Humphrey's office called to inquire if the Senator could meet with Dr. Scoville to ask him further questions on Soviet nuclear explosions particularly in light of recent information furnished the Senator by the Agency. This information supplemented the briefing of the Disarmament Subcommittee by the Agency in which Dr. Scoville participated. We shall try to make arrangements for this on Friday, April 11.

50X1

Kenneth Sprankle, Clerk and Staff Director, House Appropriations Committee, called to ask if the Agency, as a service to the Committee, could do a technical sweep of about three rooms. This request was not for any anticipated hearing but was simply based on a desire of a few members of the Committee to have a check made of the rooms. Mr. [redacted] in Security was advised of this and they will be able to run this check and Mr. Sprankle has been informed.

50X1

JOHN S. WARNER
Legislative Counsel
